10/10-ign. Fun Puzzle Game

+Decent length for price

+Great visuals

+Prelude was free and great

-Clunky controls

-Wish it were longer

-Puzzles were pretty easy

3/5

Impressed with this somewhat escape room-esque game. There's fun puzzles, a "horror" element that's not the greatest. But compared to the rest of the elements of this game, the failed horror bit doesn't really make the game bad. Overall I'd say pick this up if you want a great VR experience. However play the Prelude (Which is free) first.

First off; it's sporting massive multiplayer online combat, with 64 people....while the servers are down. So don't even think about playing online anymore. After figuring that out, I gave a shot at the singleplayer campaign. It's the cheesy arcade-hall story: "Red Star Nation attacks the oil supplies in the Middle East. We must stop them!". The gameplay itself isn't much better. Your main rifle has the scatter of a shotgun as soon as you fire more than 1 shot at a time, vehicles drive clunky and the AI is abysmal. The AI actually gives more meaning to the "singleplayer" than it simply not being multiplayer, you actually feel like you play alone. At several instances I see one of my teammates and an enemy brotherly coming into a room or up the stairs. The enemy starts shooting me, while my teammate does nothing.

Worst was when I encountered an enemy tank; it was parked right next to one of my own vehicles, which was shooting its machinegun at the enemy. Ofcourse it was equipped with a rocket, but hey, those are expensive I guess!

However, the moment I got near the enemy noticed me and felt like it should shoot at me. Not much fun. Don't consider buying it.. The game itself is good.

I upvoted this because of the Marketing plan about exclusivity deals. Over 10 million people play futbol en brasil. More den a game,

a show.

Adds value to the game and story. I might say that these DLC are more structured than the main game.. NO SPOILERS.

What the others are saying rings true. I can not recommend it.

The end feels terribly rushed, and ends abruptly.

More than that, its designed to make you fail.

You will fail skill check after skill check, because the game DEMANDS it.

It is impossible to have such high values for so many parameters.

In the end, the game is rigged and your choices dont matter....

A shame, because i truly liked the first two parts.. This is awesome! You can run your own mud server and basically host your own online world. I love it. I have been looking for a mud server to run for a long time. This one is easy to set up and works perfectly. Thanks to the dev for this!. What is Into Blue Valley?

Genre: first person exploration with mystery and horror elements (kind of)

Setting: abandoned winter village hiding a secret

Difficulty: 1/10 --> walk and collect items. nothing challenging at all

Length: 20 to 60 minutes for a single playthrough

Mode: singleplayer campaign

The positive aspects:

- graphics are nice (freezing camera lens) and strenghten ...
- ... the game's atmosphere which is generally creepy
- beautiful soundtrack

The negative aspects:

- flat story. At the end, open questions are left unanswered, no explanation why the protagonist is there, does what he does there, is looking for there at all
- very short
- no challenge, which would be ok if you could immerse into the story deeply. but you can't because there is none, so it's a minus

Result (and summary for those who have no time reading):

Into Blue Valley is short, it lacks challenge and content, and there is no deep story. You do not miss anything not buying this game. Maybe worth a tryout at sales time, but not for the regular price.. So far so good! I've played this game for about an hour and have really enjoyed it. It really reminds me of old school games I used to play when I was younger. Really like the voice acting and music, it really adds that extra flair for the game's experience. Art and gameplay are nice (although I've died a lot haha) and it shows a lot of work has been put into this game!. Great art, janky controls, unimaginative puzzles, but it's the absolutely mangled writing and decimated grammar contrasting with the earnest tone that makes this a must-play.
